69 **Advisory Committee Notes:**

70 **2018 Amendments**

71 An overwhelming number of cases filed in the courts, especially debt collection cases,
72 result in the entry of an uncontested judgment. The work required in most cases to obtain
73 an uncontested judgment does not typically depend on the amount at issue. As such, the
74 prior schedule of fees based on the amount of damages has been eliminated, and instead
75 replaced by a single fee upon entry of an uncontested judgment that is intended to
76 approximate the work required in the typical case. A second amount is provided where
77 the case is contested and fees are allowed, again in an effort to estimate the typical cost of
78 litigating such cases. Where additional work is required to collect on the judgment, the
79 revised rule provides a default amount for writs and certain motions and eliminates the
80 “considerable additional efforts” limitation of the prior rule. It also recognizes that
81 defendants often change jobs, and thus provides for such default amounts to vary
82 depending on whether a new garnishee is required to collect on the outstanding amount
83 of the judgment. Thus, the amended rule attempts to match the scheduled amounts to the
84 work required of attorneys, rather than tying the scheduled amounts solely to the
85 damages claimed. But the rule remains flexible so that when attorney fees exceed the
86 scheduled amounts, a party remains free to file an affidavit requesting appropriate fees
87 in accordance with the rule.

88 **2019 Amendments**

89 Rule 73 has been amended in response to *McQuarrie v. McQuarrie*, 2017 UT App 209,
90 and *Chaparro v. Torero*, 2018 UT App 181, to clarify that the rule applies to all motions for
91 attorney fees, not just post-judgment motions.
